Presenters

JOHN SLAVIK
Regional Sales Manager
iWAREHOUSE Technology Solutions

JACK KAUMO
Director of Sales
iWAREHOUSE Technology Solutions
Objectives

• Understand your data.

• Determine the story your data tells.

• Make decisions and implement solutions.
Key Takeaways

• Equip yourself with the tools needed to investigate the data you may — or may not — be using.

• Explore the options to help understand the best path for your task.

• Use your data to develop an action plan.
FIND YOUR WOW

FIND YOURS.

Understand your data

Enterprise-wide Operations

Transportation Operations

Distribution Center Operations
Operator-assist Technologies
Technology Equipment

- Automated vehicles
- Conveyors and pick modules
- Robotics
- Shrink-wrap machines
Product Intelligence

• RFID

• Bar coding
FIND YOURS.

Data Tells a Story. What’s Yours?
Making Informed Decisions With Data
Planning and Forecasting
Understanding Costs
Understanding Labor

Common Observations

• Supervisor-to-employee ratio is too high
• Facility is too big to track everyone
• Operational leaders in meetings
• Consumed by administrative tasks
• Difficult accountability
• Labor standards are not fair
• No visibility into cost-to-serve
FIND YOURS.

Now What?
Decisions to Be Made/Solutions

- Fleet right-sizing
- Route optimization, externally and internally
- Square footage needs
- Labor forecasting, retaining labor
- Process improvements
- Cost-to-serve
- Pay for performance
- Automation
- Virtual reality instruction
- Safer work processes
